

**Description**

Several days after transmission of updated information, it was discovered that Madelyn was not actually the proper name for Ms. Smith, and that an electronic report had been previously sent using her correct name which was Josephine Madelyn Smith. It becomes necessary to send a retraction of the previous report. The cancellation record for Madelyn Smith is transmitted via an ADT^A11 message from the EHR to the jurisdictional vital records office.

**Comments**

No Comments

**Pre Condition**

A04-Report message is sent before the A11-Cancel message.

**Post Condition**

No PostCondition

**Test Objectives**

This test case examines the ability of an EHR to create an ADT A11 message for cancellation of relevant clinical information to the Electronic Death Registration System (EDRS).

**Evaluation Criteria**

No evaluation criteria

**Notes for Testers**
